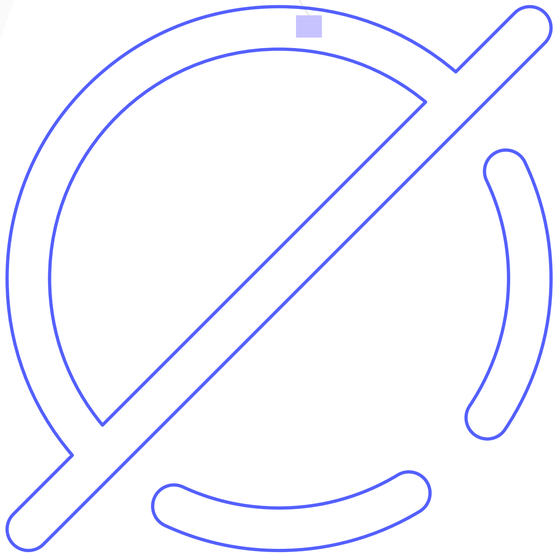
Completeness & Politeness of Conversation



Pronunciation Accuracy

VoiceTube

- Self recording and speaking practice function
- Provide detailed feedback on the pronunciation mistakes users made
- Only have fixed content to practice, which is selected from YouTube

Duolingo

- Speaking practice opportunities with real people
- Speaking quizees to test users pronunciations
- Speaking practice with real people is not free
- No feedback and correction on users' mistakes
- Speaking quizees are simple and limited, which is not suitable for real-life scenario

Liulishuo

- Self recording and speaking practice on selected topics
- Only provid general feedback on what is correct rather than criticizing their specific mistakes
- Fixed topics to practice, which gives users limited choices

Listening Comprehension

Otter

- Transcribe a speaking in real time
- Able to import a local audio or video file to transcribe
- Cannot export the transcription with free version

Duolingo

- Listening quizees to test users' listening skills
- Good for long-term learning & practicing on listening skill
- Cannot give users immdiate help if they don't understand the content of thire English lectures

Transcribe
